HireGenie AI

Get Hired Smarter

AI-Powered Career Assistant Platform

PRESANTED BY:

SANA FATIMA (46)
KOUSAR FIDA (18)

Department of Computer Science
2022 – 2026

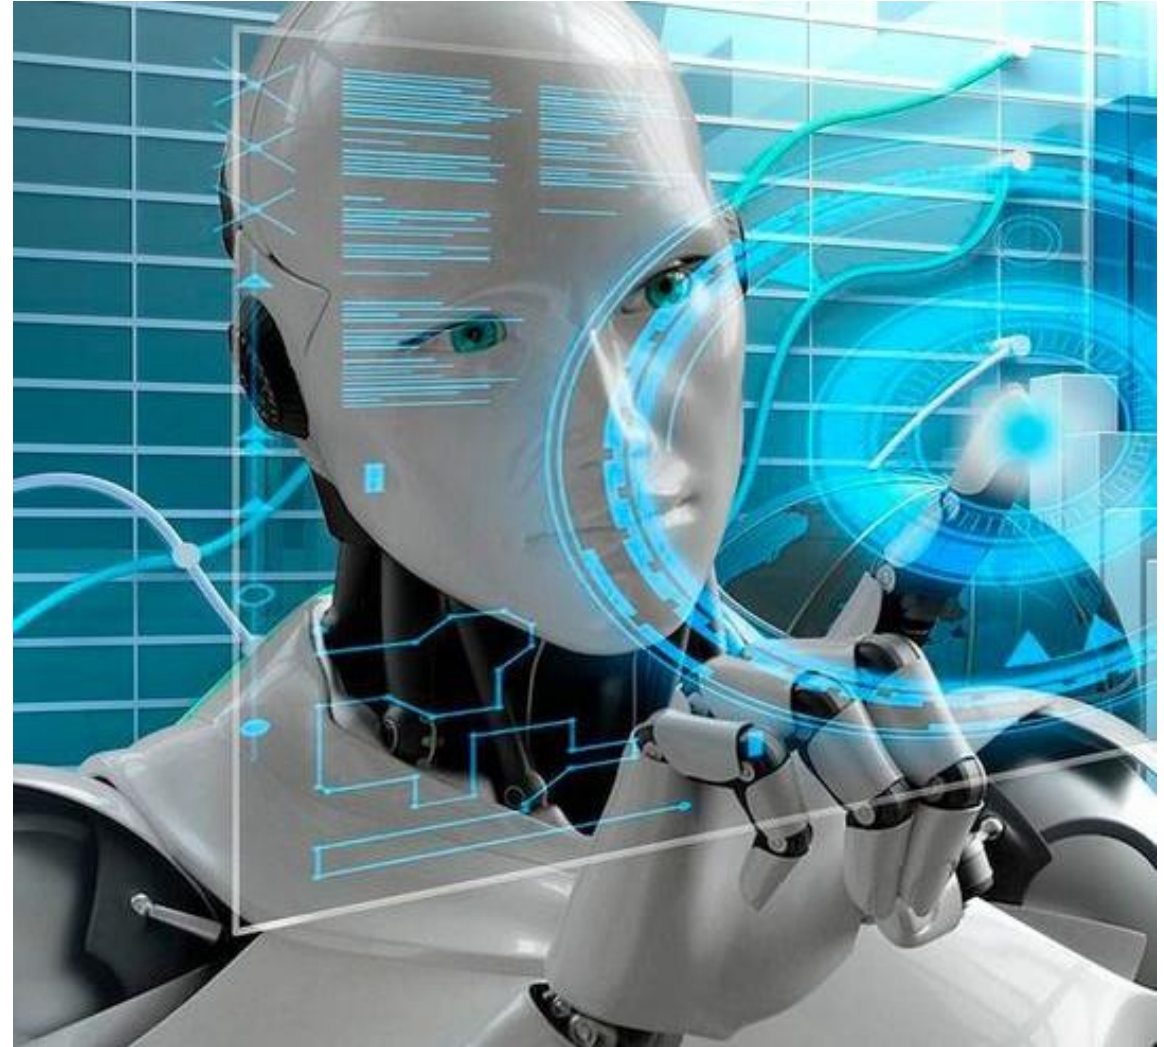

Outline

- Introduction
- Problem Statement
- Proposed Solution
- Key Features
- System Architecture
- Technology Stack
- System Demonstration
- Future Enhancements
- Conclusion
- Q&A Session

Introduction

- AI-powered career assistant
- Helps users build resumes and cover letters
- Finds latest jobs based on keywords
- Provides AI career guidance
- Offers learning roadmaps and courses
- Supports career growth in one platform

Problem Statement

- Creating resumes takes time
- Finding relevant jobs is difficult
- Many users need career guidance
- Skill learning resources are scattered
- Existing platforms offer limited AI support

Proposed Solution

- AI-powered career assistant
- Creates resumes and cover letters
- Helps users find latest jobs
- Provides AI career guidance
- Supports skill learning and growth
- All career tools in one platform

Deployment: Vercel, Render, GitHub

Live Demo

In the live demo, we will show HireGenie AI in real time. Everything is fast and smooth, from login to resume and cover letter generation in seconds. Job search is instant, and the AI chatbot replies like a real career guide. The dashboard and Growth Hub make it more interactive. Overall, it feels like a smart “Genie” helping with your career.

Future Work

- Video interview analysis (confidence, tone, body language, sentiment)
- Cloud deployment (AWS / Azure / Google Cloud) for 24/7 access
- Mobile app (Android & iOS) for job search and applications
- Platform integrations (LinkedIn, job portals, email, calendar)
- Enhanced security (encryption, fraud detection, data protection)
- Future AI features like auto email generation and smart automation

Conclusion

- Our aim is to build an all-in-one AI career platform
- Combines resume, job search, guidance, and learning in one place
- Helps users prepare for careers easily and better
- Saves time using smart AI tools
- Makes job search simple and fast

THANK YOU FOR YOUR TIME!

We welcome your questions and feedback!
